

RFLock 1500-S

**NEW RF SYSTEM OPERATES
WITH WIEGAND ACCESS
PANELS**

**No Mechanical Reader Components
Equals Guaranteed Card Reads!**

SUPERIOR BY DESIGN

BeLine's RFLock 1500-S is an advanced RF lock system for high security areas, school dorms and office buildings. The RFLock 1500-S uses the same card technology that wiegand prox card reader's use thus allowing both systems to operate with one card. Users can now access the main entry prox card reader and the room door with one card. The RFLock 1500-S is very cost effective compared to other prox card doorlock systems. The RFLock 1500-S is the most advanced locking system that contains no moving parts to read cards. This guaranteed reliability when reading cards is innovative and cost effective. The RFLock 1500-S system uses a Front Desk Control System software that runs on a Windows Operating System. The RFLock 1500-S is mechanically sound and solid by design to guarantee the reliability that all facilities require. The RFLock 1500-S is a commercial grade mortise system.
