INSTRUCTIONS FOR CUSTOM CARD PRINTING
BY BELINE

Acceptable File Formats
TIF, BMP, AI, PDF, JPG

Setting Up Your Artwork
Bleeds - If you want your image to extend to the edge of the card, a bleed of no less than 1/8" should be used.

Resolution
150 Line Screen - We recommend that you send artwork at 300 DPI for most jobs, or 1200 DPI for line art.

Lead Time
3 weeks from date artwork is approved. This includes cost effective transit.

Shipping Costs
Shipping cost from overseas card manufacturing plant to any destination. Inquire on this cost during time of order.

STANDARD CARD

⊗ 2.125   ⊗ 3.375
